Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

1. Corporate information

Bharti Airtel Limited ('the Company') is domiciled and incorporated in India as a limited liability company with its shares being listed on the National Stock Exchange and the Bombay Stock Exchange. The registered office of the Company is situated at Bharti Crescent, 1, Nelson Mandela Road, Vasant Kunj, Phase – II, New Delhi – 110070.

The Company is principally engaged in provision of telecommunication services in India. The details as to the services provided by the Company are further provided in note 33. For details as to the group entities, refer note 34.

2. Summary of significant accounting policies

2.1 Basis of preparation

These standalone financial statements ('financial statements') have been prepared to comply in all material respects with the Indian Accounting Standard ('Ind AS') as notified by the Ministry of Corporate Affairs ('MCA') under section 133 of the Companies Act, 2013 ('Act'), read together with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and other relevant provisions of the Act.

The financial statements are authorised for issue by the Company's Board of Directors on April 24, 2018.

The financial statements are based on the classification provisions contained in Ind AS 1, 'Presentation of Financial Statements' and division II of schedule III of the Companies Act 2013. Further, for the purpose of clarity, various items are aggregated in the statement of profit and loss and balance sheet. Nonetheless, these items are dis-aggregated separately in the notes to the financial statements, where applicable or required.

All the amounts included in the financial statements are reported in millions of Indian Rupees ('Rupees' or '₹') and are rounded to the nearest million, except per share data and unless stated otherwise. Further, amounts which are less than a million are appearing as '0'.

The preparation of the said financial statements requires the use of certain critical accounting estimates and judgements. It also requires the management to exercise judgement in the process of applying the Company's accounting policies. The areas where estimates are significant to the financial statements, or areas involving a higher degree of judgement or complexity, are disclosed in note 3.

The accounting policies, as set out in the following paragraphs of this note, have been consistently applied, by the Company, to all the periods presented in the said financial statements. Further, previous year figures have been re-grouped, wherever necessary to conform to current year's classification.

2.2 Basis of measurement

The financial statements have been prepared on the accrual and going concern basis, and the historical cost convention except where the Ind AS requires a different accounting treatment. The principal variations from the historical cost convention relate to financial instruments classified as fair value through profit or loss and liability for cash-settled awards (refer note 2.16) - which are measured at fair value.

Fair value measurement

Fair value is the price at the measurement date, at which an asset can be sold or paid to transfer a liability, in an orderly transaction between market participants. The Company's accounting policies require, measurement of certain financial / non-financial assets and liabilities at fair values (either on a recurring or non-recurring basis). Also, the fair values of financial instruments measured at amortised cost are required to be disclosed in the said financial statements.

The Company is required to classify the fair valuation method of the financial / non-financial assets and liabilities, either measured or disclosed at fair value in the financial statements, using a three level fair-value-hierarchy (which reflects the significance of inputs used in the measurement). Accordingly, the Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

The three levels of the fair-value-hierarchy are described below:

Level 1: Quoted (unadjusted) prices for identical assets or liabilities in active markets
Level 2: Significant inputs to the fair value measurement are directly or indirectly observable
Level 3: Significant inputs to the fair value measurement are unobservable.

2.3 Foreign currency transactions

The financial statements are presented in Indian Rupees which is the functional and presentation currency of the Company.

Transactions in foreign currencies are initially recorded in the relevant functional currency at the rates prevailing at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the closing exchange rate prevailing as at the reporting date with the resulting foreign exchange differences, on subsequent re-statement / settlement, recognised in the statement of profit and loss within finance costs / finance income. Non-monetary assets and liabilities denominated in foreign currencies are translated into the functional currency using the exchange rate prevalent, at the date of initial recognition (in case they are measured at historical cost) or at the date when the fair value is determined (in case they are measured at fair value) – the resulting foreign exchange difference, on subsequent re-statement / settlement, recognised in the statement of profit and loss, except to the extent that it relates to items recognised in the other comprehensive income or directly in equity.

The equity items denominated in foreign currencies are translated at historical cost.

2.4 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current / non-current classification.

Deferred tax assets and liabilities, and all assets and liabilities which are not current (as discussed in the below paragraphs) are classified as non-current assets and liabilities.

An asset is classified as current when it is expected to be realised or intended to be sold or consumed in normal operating cycle, held primarily for the purpose of trading, expected to be realised within twelve months after the reporting period, or cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current when it is expected to be settled in normal operating cycle, it is held primarily for the purpose of trading, it is due to be settled within twelve months after the reporting period, or there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

Separated embedded derivatives are classified basis the host contract.

2.5 Common control transactions

Business Combinations arising from transfers of interest in entities that are under the common control, are accounted at historical cost. The difference between any consideration paid /received and the aggregate historical carrying amounts of assets and liabilities of the interest acquired / disposed is recorded in retained earnings.

2.6 Property, plant and equipment ('PPE')

An item is recognised as an asset, if and only if, it is probable that the future economic benefits associated with the item will flow to the Company and its cost can be measured reliably. PPE are initially recognised at cost. The initial cost of PPE comprises its purchase price (including non-refundable duties and taxes but excluding any trade discounts and rebates), assets retirement obligations (refer note 2.17 (b)) and any directly attributable cost of bringing the asset to its working condition and location for its intended use.

Subsequent to initial recognition, PPE are stated at cost less accumulated depreciation and any impairment losses. When significant parts of PPE are required to be replaced at regular intervals, the Company recognises such parts as separate component of assets. When an item of PPE is replaced, then its carrying amount is de-recognised from the balance sheet and cost of the new item of PPE is recognised. Further, in case the replaced part was not being depreciated separately, the cost of the replacement is used as an indication to determine the cost of the replaced part at the time it was acquired.

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

The expenditures that are incurred after the item of PPE has been put to use, such as repairs and maintenance, are normally charged to the statement of profit and loss in the period in which such costs are incurred. However, in situations where the said expenditure can be measured reliably, and is probable that future economic benefits associated with it will flow to the Company, it is included in the asset's carrying value or as a separate asset, as appropriate.

Depreciation on PPE is computed using the straight-line method over the estimated useful lives. Freehold land is not depreciated as it has an unlimited useful life. The Company has established the estimated range of useful lives of different categories of PPE as follows:

Categories	Years
Leasehold land	Period of lease
Building	20
Building on leased land	20
Leasehold improvements	Period of lease or 10 years, whichever is less
Plant and Equipment	
Network Equipment (including passive infrastructure)	3 - 20
Computer	3
Office equipment	2 - 5
Furniture and fixtures	5
Vehicles	5

The useful lives, residual values and depreciation method of PPE are reviewed, and adjusted appropriately, at-least as at each financial year so as to ensure that the method and period of depreciation are consistent with the expected pattern of economic benefits from these assets. The effect of any change in the estimated useful lives, residual values and / or depreciation method are accounted prospectively, and accordingly the depreciation is calculated over the PPE's remaining revised useful life. The cost and the accumulated depreciation for PPE sold, scrapped, retired or otherwise disposed off are de-recognised from the balance sheet and the resulting gains / (losses) are included in the statement of profit and loss within other expenses / other income.

The management basis its past experience and technical assessment has estimated the useful life, which is at variance with the life prescribed in Part C of Schedule II of the Companies Act, 2013 and has accordingly, depreciated the assets over such useful life.

The cost of capital work-in-progress (CWIP) is presented separately in the balance sheet.

2.7 Intangible assets

Identifiable intangible assets are recognised when the Company controls the asset, it is probable that future economic benefits attributed to the asset will flow to the Company and the cost of the asset can be measured reliably.

The intangible assets are initially recognised at cost. These assets having finite useful life are carried at cost less accumulated amortisation and any impairment losses. Amortisation is computed using the straight-line method over the expected useful life of intangible assets.

The Company has established the estimated useful lives of different categories of intangible assets as follows:

a. Softwares

Softwares are amortised over the period of license, generally not exceeding three years.

b. Bandwidth

Bandwidth is amortised over the period of the agreement.

c. Licenses (including spectrum)

Acquired licenses and spectrum are amortised commencing from the date when the related network is available for intended use in the relevant jurisdiction. The useful lives range from two to twenty years.

The revenue-share based fee on licenses / spectrum is charged to the statement of profit and loss in the period such cost is incurred.

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

d. Other acquired intangible assets

Other acquired intangible assets include the following:

Rights acquired for unlimited license access: Over the period of the agreement which ranges upto five years.

Customer base: Over the estimated life of such relationships.

Non-compete fee: Over the period of the agreement which ranges upto five years.

The useful lives and amortisation method are reviewed, and adjusted appropriately, at least at each financial year end so as to ensure that the method and period of amortisation are consistent with the expected pattern of economic benefits from these assets. The effect of any change in the estimated useful lives and / or amortisation method is accounted prospectively, and accordingly the amortisation is calculated over the remaining revised useful life.

Further, the cost of intangible assets under development includes the amount of spectrum allotted to the Company and related costs (including borrowing costs that are directly attributable to the acquisition or construction of qualifying assets (refer note 7)), if any, for which services are yet to be rolled out and are presented separately in the balance sheet.

2.8 Impairment of non-financial assets

PPE, intangible assets and Intangible assets under development

PPE (including CWIP) and intangible assets with definite lives, are reviewed for impairment, whenever events or changes in circumstances indicate that their carrying values may not be recoverable. Intangible assets under development is tested for impairment, at-least annually and whenever circumstances indicate that it may be impaired.

For the purpose of impairment testing, the recoverable amount (that is, higher of the fair value less costs to sell and the value-in-use) is determined on an individual asset basis, unless the asset does not generate cash flows that are largely independent of those from other assets, in which case the recoverable amount is determined at the CGU level to which the said asset belongs. If such individual assets or CGU are considered to be impaired, the impairment to be recognised in the statement of profit and loss is measured by the amount by which the carrying value of the asset / CGU exceeds their estimated recoverable amount and allocated on pro-rata basis.

Reversal of impairment losses

Impairment losses are reversed in the statement of profit and loss and the carrying value is increased to its revised recoverable amount provided that this amount does not exceed the carrying value that would have been determined had no impairment loss been recognised for the said asset / CGU in previous years.

2.9 Financial instruments

a. Recognition, classification and presentation

The financial instruments are recognised in the balance sheet when the Company becomes a party to the contractual provisions of the financial instrument.

The Company determines the classification of its financial instruments at initial recognition.

The Company recognises its investment in subsidiaries, joint ventures and associates at cost less any impairment losses. The said investments are tested for impairment, at-least annually and whenever circumstances indicate that their carring values may exceed the recoverable amount (viz. higher of the fair value less costs to sell and the value-in-use).

The Company classifies its financial assets in the following categories: a) those to be measured subsequently at fair value through profit or loss, and b) those to be measured at amortised cost. The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

The Company has classified all the non-derivative financial liabilities as measured at amortised cost.

The entire hybrid contract, financial assets with embedded derivatives, are considered in their entirety for determining

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

the contractual terms of the cash flow and accordingly the embedded derivatives are not separated. However, derivatives embedded in non-financial instrument / financial liabilities (measured at amortised cost) host contracts are classified as separate derivatives if their economic characteristics and risks are not closely related to those of the host contracts.

Financial assets and liabilities arising from different transactions are off-set against each other and the resultant net amount is presented in the balance sheet, if and only when, the Company currently has a legally enforceable right to set-off the related recognised amounts and intends either to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

b. Measurement – Non-derivative financial instruments

I. Initial measurement

At initial recognition, the Company measures the non-derivative financial instruments (except off-market financial guarantee) at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Otherwise transaction costs are expensed in the statement of profit and loss. Any off market financial guarantees, issued in relation to obligations of subsidiaries, are initially recognised at fair value (as part of the cost of the investment in the subsidiary).

II. Subsequent measurement - financial assets

The subsequent measurement of the non-derivative financial assets depends on their classification as follows:

i. Financial assets measured at amortised cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost using the effective-interest rate ('EIR') method (if the impact of discounting / any transaction costs is significant). Interest income from these financial assets is included in finance income.

ii. Financial assets at fair value through profit or loss ('FVTPL')

All financial assets that do not meet the criteria for amortised cost are measured at FVTPL. Interest (basis EIR method) and dividend income from financial assets at FVTPL is recognised in the statement of profit and loss within finance income / finance costs separately from the other gains / losses arising from changes in the fair value.

Impairment

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk since initial recognition. If credit risk has not increased significantly, twelve month, expected credit loss (ECL) is used to provide for impairment loss, otherwise lifetime ECL is used.

However, only in case of trade receivables, the Company applies the simplified approach which requires expected lifetime losses to be recognised from initial recognition of the receivables.

III. Subsequent measurement - financial liabilities

Any off-market financial guarantees are amortised over the life of the guarantee and are measured at each reporting date at the higher of (i) the remaining unamortised balance of the amount at initial recognition and (ii) the best estimate of expenditure required to settle the obligation at the end of the reporting period. Other financial liabilities are subsequently measured at amortised cost using the EIR method (if the impact of discounting / any transaction costs is significant).

c. Measurement – derivative financial instruments

Derivative financial instruments, including separated embedded derivatives are classified as financial instruments at fair value through profit or loss - Held for trading. Such derivative financial instruments are initially recognised at fair value. They are subsequently measured at their fair value, with changes in fair value being recognised in the statement of profit and loss within finance income / finance costs.

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

d. Derecognition

The financial liabilities are de-recognised from the balance sheet when the under-lying obligations are extinguished, discharged, lapsed, cancelled, expires or legally released. The financial assets are de-recognised from the balance sheet when the rights to receive cash flows from the financial assets have expired, or have been transferred and the Company has transferred substantially all risks and rewards of ownership. The difference in the carrying amount is recognised in the statement of profit and loss.

2.10 Leases

The determination of whether an arrangement is a lease is based on whether fulfillment of the arrangement is dependent on the use of a specific asset and the arrangement conveys a right to use the asset, even if that right is not explicitly specified in an arrangement.

Leases where the lessor transfers substantially all the risks and rewards of ownership of the leased asset are classified as finance lease and other leases are classified as operating lease.

Operating lease receipts / payments are recognised as an income / expense on a straight-line basis over the lease term unless the lease payments increase in line with expected general inflation.

a. Company as a lessee

Assets acquired under finance leases are capitalised at the lease inception at lower of the fair value of the leased asset and the present value of the minimum lease payments. Lease payments are apportioned between finance charges (recognised in the statement of profit and loss) and reduction of the lease liability so as to achieve a constant periodic rate of interest on the remaining balance of the liability for each period.

b. Company as a lessor

Assets leased to others under finance lease are recognised as receivables at an amount equal to the net investment in the leased assets. Finance lease income is aloocated to periods so as to reflect a constant rate of return on the net investment outstanding in respect of the finance lease.

Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognised in statement of profit and loss on a stratght-line basis over the lease term.

The Company enters into 'Indefeasible right to use' ('IRU') arrangement wherein the assets are given on lease over the substantial part of the asset life. However, the title to the assets and significant risk associated with the operation and maintenance of these assets remains with the Company. Hence, such arrangements are recognised as operating lease. The contracted price is recognised as revenue during the tenure of the agreement. Unearned IRU revenue received in advance is presented as deferred revenue within liabilities in the balance sheet.

2.11 Taxes

The income tax expense comprises of current and deferred income tax. Income tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognised in the other comprehensive income or directly in equity, in which case the related income tax is also recognised accordingly.

a. Current tax

The current tax is calculated on the basis of the tax rates, laws and regulations, which have been enacted or substantively enacted as at the reporting date. The payment made in excess / (shortfall) of the Company's income tax obligation for the period are recognised in the balance sheet under non-current assets as income tax assets / under current liabilities as current tax liabilities.

Any interest, related to accrued liabilities for potential tax assessments are not included in Income tax charge or (credit), but are rather recognised within finance costs.

b. Deferred tax

Deferred tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying values in the financial statements. However, deferred tax are not recognised if it arises

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

The unrecognised deferred tax assets / carrying amount of deferred tax assets are reviewed at each reporting date for recoverability and adjusted appropriately.

Deferred tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Income tax assets and liabilities are off-set against each other and the resultant net amount is presented in the balance sheet, if and only when, (a) the Company currently has a legally enforceable right to set-off the current income tax assets and liabilities, and (b) when it relate to income tax levied by the same taxation authority and where there is an intention to settle the current income tax balances on net basis.

2.12 Inventories

Inventories are stated at the lower of cost (determined using the first-in-first-out method) and net realisable value. The costs comprise its purchase price and any directly attributable cost of bringing to its present location and condition. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated variable costs necessary to make the sale.

2.13 Cash and cash equivalents

Cash and cash equivalents include cash in hand, bank balances and any deposits with original maturities of three months or less (that are readily convertible to known amounts of cash and cash equivalents and subject to an insignificant risk of changes in value). However, for the purpose of the statement of cash flows, in addition to above items, any bank overdrafts / cash credits that are integral part of the Company's cash management, are also included as a component of cash and cash equivalents.

2.14 Non-current assets held for sale

Non-current assets are classified as assets-held-for-sale when their carrying amount is to be recovered principally through a sale transaction and a sale is considered highly probable. The sale is considered highly probable only when the asset is available for immediate sale in its present condition, it is unlikely that the sale will be withdrawn and sale is expected within one year from the date of the classification. Assets classified as held for sale are stated at the lower of carrying amount and fair value less costs to sell.

Assets classified as held for sale are presented separately in the balance sheet.

Loss is recognised for any initial or subsequent write-down of the asset to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset, but not in excess of any cumulative loss previously recognised.

2.15 Share capital / securities premium account

Ordinary shares are classified as Equity when the Company has an un-conditional right to avoid delivery of cash or another financial asset, that is, when the dividend and repayment of capital are at the sole and absolute discretion of the Company and there is no contractual obligation whatsoever to that effect.

2.16 Employee benefits

The Company's employee benefits mainly include wages, salaries, bonuses, defined contribution to plans, defined benefit plans, compensated absences, deferred compensation and share-based payments. The employee benefits are recognised in the year in which the associated services are rendered by the Company employees.

a. Defined contribution plans

The contributions to defined contribution plans are recognised in profit or loss as and when the services are rendered by employees. The Company has no further obligations under these plans beyond its periodic contributions.

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

b. Defined benefit plans

In accordance with the local laws and regulations, all the employees in India are entitled for the Gratuity plan. The said plan requires a lump-sum payment to eligible employees (meeting the required vesting service condition) at retirement or termination of employment, based on a pre-defined formula.

The Company provides for the liability towards the said plans on the basis of actuarial valuation carried out quarterly as at the reporting date, by an independent qualified actuary using the projected-unit-credit method.

The obligation towards the said benefits is recognised in the balance sheet, at the present value of the defined benefit obligations. The present value of the said obligation is determined by discounting the estimated future cash outflows, using interest rates of government bonds.

The interest expenses are calculated by applying the above mentioned discount rate to defined benefits obligations. The interest expenses on the net defined benefit liability is recognised in the statement of profit and loss. However, the related re-measurements of the net defined benefit liability are recognised directly in the other comprehensive income in the period in which they arise. The said re-measurements comprise of actuarial gains and losses (arising from experience adjustments and changes in actuarial assumptions). Re-measurements are not re-classified to the statement of profit and loss in any of the subsequent periods.

c. Other long-term employee benefits

The employees of the Company are entitled to compensated absences as well as other long-term benefits. Compensated absences benefit comprises of encashment and availment of leave balances that were earned by the employees over the period of past employment.

The Company provides for the liability towards the said benefit on the basis of actuarial valuation carried out quarterly as at the reporting date, by an independent qualified actuary using the projected-unit-credit method. The related re-measurements are recognised in the statement of profit and loss in the period in which they arise.

d. Share-based payments

The Company operates equity-settled and cash-settled, employee share-based compensation plans, under which the Company receives services from employees as consideration for stock options either towards shares of the Company / cash settled units.

In case of equity-settled awards, the fair value is recognised as an expense in the statement of profit and loss within employee benefits as employee share-based payment expenses, with a corresponding increase in share-based payment reserve (a component of equity).

However, in case of cash-settled awards, the credit is recognised as a liability within other non-financial liabilities. Subsequently, at each reporting period, until the liability is settled, and at the date of settlement, liability is re-measured at fair value through statement of profit and loss.

The total amount so expensed is determined by reference to the grant date fair value of the stock options granted, which includes the impact of any market performance conditions and non-vesting conditions but excludes the impact of any service and non-market performance vesting conditions. However, the non-market performance vesting and service conditions are considered in the assumption as to the number of options that are expected to vest. The forfeitures are estimated at the time of grant and reduce the said expense rateably over the vesting period.

The expense so determined is recognised over the requisite vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. As at each reporting date, the Company revises its estimates of the number of options that are expected to vest, if required.

It recognises the impact of any revision to original estimates in the period of change. Accordingly, no expense is recognised for awards that do not ultimately vest, except for which vesting is conditional upon a market performance / non-vesting condition. These are treated as vesting irrespective of whether or not the market / non-vesting condition is satisfied, provided that service conditions and all other non-market performance are satisfied.

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

Where the terms of an award are modified, in addition to the expense pertaining to the original award, an incremental expense is recognised for any modification that results in additional fair value, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled (including due to non-vesting conditions not being met), it is treated as if it is vested thereon, and any un-recognised expense for the award is recognised immediately.

2.17 Provisions

a. General

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources will be required to settle the said obligation, and the amounts of the said obligation can be reliably estimated.

Provisions are measured at the present value of the expenditures expected to be required to settle the relevant obligation, using a pre-tax rate that reflects current market assessments of the time value of money (if the impact of discounting is significant) and the risks specific to the obligation. The increase in the provision due to un-winding of discount over passage of time is recognised within finance costs.

b. Asset retirement obligation ('ARO')

ARO are recognised for those operating lease arrangements where the Company has an obligation at the end of the lease period to restore the leased premises in a condition similar to inception of lease. ARO are provided at the present value of expected costs to settle the obligation and are recognised as part of the cost of that particular asset. The estimated future costs of decommissioning are reviewed annually and any changes in the estimated future costs or in the discount rate applied are adjusted from the cost of the asset.

2.18 Contingencies

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

2.19 Revenue recognition

Revenue is recognised when it is probable that the entity will receive the economic benefits associated with the transaction and the related revenue can be measured reliably. Revenue is recognised at the fair value of the consideration received or receivable, which is generally the transaction price, net of any taxes / duties, discounts and process waivers.

In order to determine if it is acting as a principal or as an agent, the Company assesses whether it has exposure to the significant risks and rewards associated with the sale of goods or the rendering of services.

a. Service revenues

Service revenues mainly pertain to usage, subscription and activation charges for voice, data, messaging and value added services. It also includes revenue towards interconnection/roaming charges for usage of the Company's network by other operators for voice, data, messaging and signalling services.

Usage charges are recognised based on actual usage. Subscription charges are recognised over the estimated customer relationship period or subscription pack validity period, whichever is lower. Customer onboarding revenue and associated cost is recognised upfront. Activation revenue and related activation costs are amortised over the estimated customer relationship period. However, any excess of activation costs over activation revenue are expensed as incurred.

The billing / collection in excess of revenue recognised is presented as deferred revenue in the balance sheet whereas unbilled revenue is recognised under other current financial assets.

Revenues from long distance operations comprise of voice services and bandwidth services (including installation), which are recognised on provision of services and over the period of arrangement respectively.

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

b. Multiple element arrangements

The Company has entered into certain multiple-element revenue arrangements which involve the delivery or performance of multiple products, services or rights to use assets. At the inception of the arrangement, all the deliverables therein are evaluated to determine whether they represent separately identifiable component basis it is perceived from the customer perspective to have value on standalone basis.

Total consideration related to the multiple element arrangements is allocated among the different components based on their relative fair values (i.e., ratio of the fair value of each element to the aggregated fair value of the bundled deliverables).

c. Equipment sales

Equipment sales mainly pertain to sale of telecommunication equipment and related accessories. Such transactions are recognised when the significant risks and rewards of ownership are transferred to the customer. However, in case of equipment sale forming part of multiple-element revenue arrangements which is not separately identifiable component, revenue is recognised over the customer relationship period.

d. Capacity swaps

The exchange of network capacity is recognised at fair value unless the transaction lacks commercial substance or the fair value of neither the capacity received nor the capacity given is reliably measurable.

e. Interest income

The interest income is recognised using the EIR method. For further details, refer note 2.9.

f. Dividend income

Dividend income is recognised when the Company's right to receive the payment is established.

2.20 Borrowing costs

Borrowing costs consist of interest and other ancillary costs that the Company incurs in connection with the borrowing of funds. The borrowing costs directly attributable to the acquisition or construction of any asset that takes a substantial period of time to get ready for its intended use or sale are capitalised. All the other borrowing costs are recognised in the statement of profit and loss within finance costs of the period in which they are incurred.

2.21 Exceptional items

Exceptional items refer to items of income or expense within the statement of profit and loss from ordinary activities which are non-recurring and are of such size, nature or incidence that their separate disclosure is considered necessary to explain the performance of the Company.

2.22 Non-operating expense

Non-operating expense comprises regulatory levies applicable to finance income.

2.23 Dividends paid

Dividend to shareholders is recognised as a liability and deducted from equity, in the year in which the dividends are approved by the shareholders. However, interim dividends declared by the Board of directors, which does not need shareholders' approval, are recognised as a liability and deducted from retained earnings, in the year in which the dividends are so declared.

2.24 Earnings per share ('EPS')

The Company presents the Basic and Diluted EPS data.

Basic EPS is computed by dividing the profit for the period attributable to the shareholders of the Company by the weighted average number of shares outstanding during the period.

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

Diluted EPS is computed by adjusting, the profit for the year attributable to the shareholders and the weighted average number of shares considered for deriving Basic EPS, for the effects of all the shares that could have been issued upon conversion of all dilutive potential shares. The dilutive potential shares are adjusted for the proceeds receivable had the shares been actually issued at fair value. Further, the dilutive potential shares are deemed converted as at beginning of the period, unless issued at a later date during the period.

3. Critical accounting estimates, assumptions and judgements

The estimates and judgements used in the preparation of the said financial statements are continuously evaluated by the Company, and are based on historical experience and various other assumptions and factors (including expectations of future events), that the Company believes to be reasonable under the existing circumstances. The said estimates and judgements are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

Although the Company regularly assesses these estimates, actual results could differ materially from these estimates - even if the assumptions under-lying such estimates were reasonable when made, if these results differ from historical experience or other assumptions do not turn out to be substantially accurate. The changes in estimates are recognised in the financial statements in the year in which they become known.

3.1 Critical accounting estimates and assumptions

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying values of assets and liabilities within the next financial year are discussed below.

a. Impairment reviews

PPE (including CWIP) and intangible assets with definite lives, are reviewed for impairment, whenever events or changes in circumstances indicate that their carrying values may not be recoverable. Similarly, intangible assets under development is tested for impairment, at-least annually and whenever circumstances indicate that it may be impaired. For details as to the impairment policy, refer note 2.8. Accordingly the Company has performed impairment reviews for the above assets. However, the said reviews did not result in any impairment charge.

In calculating the value in use, the Company is required to make significant judgements, estimates and assumptions inter-alia concerning the growth in EBITDA, long-term growth rates and discount rates to reflect the risks involved.

The Company operates in developing market and in such market, the plan for shorter duration is not indicative of the long-term future performance. Considering this and the consistent use of such robust ten year information for management reporting purpose, the Company uses ten year plans for the purpose of impairment testing.

b. Taxes

Deferred tax assets are recognised for the unused tax losses and minimum alternative tax credits for which there is probability of utilisation against the taxable profit. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits, future tax planning strategies and recent business performances and developments.

c. Property, plant and equipment

Refer note 2.6 and 6 for the estimated useful life and carrying value of property, plant and equipment respectively.

During the year ended March 31, 2017, the Company had reassessed useful life of certain categories of network assets due to technological developments and accordingly had revised the estimate of its useful life in respect of those assets. Out of those assets, the additional depreciation charge of ₹2,920 on assets for which the revised useful life had expired by March 31, 2016 had been recognised and disclosed as 'exceptional income / (expenses), net' and additional depreciation charge of ₹6,276 for other assets has been recognised within 'Depreciation and amortisation'. The impact of above change on the depreciation charge for the future years after March 31, 2018 is as follows:

	31 March, 2019	31 March, 2020	Future Period till end of life
Impact on future depreciation charge	(2,646)	(1,109)	15,715

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

d. Allowance for impairment of trade receivables

The expected credit loss is mainly based on the ageing of the receivable balances and historical experience. The receivables are assessed on an individual basis or grouped into homogeneous groups and assessed for impairment collectively, depending on their significance. Moreover, trade receivables are written off on a case-to-case basis if deemed not to be collectible on the assessment of the underlying facts and circumstances

e. Contingent liability

Refer note 23 for details of contingent liability.

4. Standards issued but not effective until the date of authorisation for issuance of the said financial statements

The new significant standards, amendments to Standards that are issued but not yet effective until the date of authorisation for issuance of the said financial statements are discussed below. The Company has not early adopted these amendments and intends to adopt when they become effective.

Ind AS 115, 'Revenue from Contracts with Customers'

In March 2018, MCA has notified the Ind AS 115, Revenue from Contract with Customers. As a consequence of issuance of Ind AS 115, relevant paragraphs have been inserted / amended in various other standards.

The Standard establishes a new five-step model that will apply to revenue arising from contracts with customers. Under this standard, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in Ind AS 115 provide a more structured approach to measuring and recognising revenue. The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under Ind AS. The effective date of Ind AS 115 is annual periods beginning on or after April 1, 2018. The Company does not expect that the adoption of the said standard and related amendments will have any significant impact on the financial statements per se.

5. Significant transactions / new developments

(i) During the year ended March 31, 2018, the Company has transferred its 100% equity stake in Bharti Airtel (Hong Kong) Limited and 37.03% equity stake in Bharti Airtel (UK) Limited to Bharti International (Singapore) Pte. Limited ('BISPL'), an indirect subsidiary of the Company against a consideration of ₹429 and ₹1,806 respectively and 44% stake in Bharti Telemedia Limited, a subsidiary of the Company to Nettle Infrastructure Investments Limited, another subsidiary of the Company, against a consideration of ₹47,632. Accordingly the excess of cost of investments over the proceeds amounting to ₹28,498 has been recognised in other equity.

(ii) During the year ended March 31, 2018, the Company has increased its equity investment in Indo Teleports Limited from 95% to 100% for a consideration of ₹23.

(iii) During the year ended March 31, 2018, an understanding for demerger of consumer mobile businesses of Tata Teleservices Limited and Tata Teleservices Maharashtra Limited into the Company was entered into. Further, the board of directors have approved the scheme(s) of arrangement under section 230 to section 232 of the Companies Act, 2013 for the said demerger. The said transaction is subject to requisite regulatory approvals.

(iv) During the year ended March 31, 2018, the Board of Directors approved a scheme of arrangement, under section 230 to section 232 of the Companies Act, 2013, for the transfer of the optical fiber cable business to the Telesonic Networks Limited, a wholly owned subsidiary of the Company. The said transaction is subject to requisite regulatory approvals.

(v) During the year ended March 31, 2018, the Company has completed the acquisition of 100% equity stake and compulsorily convertible debentures of Tikona Digital Networks Pvt Ltd ('TDNPL') as all necessary closing conditions have been fulfilled and filed an application under section 230 to section 232 of the Companies Act, 2013 before the Delhi bench of the National Company Law Tribunal for the merger of TDNPL with the Company.

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

(vi) During the year ended March 31, 2017, the Company had entered into an agreement to sell the investment in subsidiaries Bharti Airtel International (Netherlands) B.V. ('BAIN'), Bharti International (Singapore) Pte Ltd ('BISPL') and Bharti Airtel International (Mauritius) Limited ('BAIML') to its wholly owned subsidiary Network i2i Limited. However, sale of investment in BISPL is subject to certain customary closing conditions, hence had not consummated. The same was classified as assets-held-for-sale. Accordingly, the excess of cost of investment over sales consideration, amounting to ₹118,582 and ₹14,906 pertaining to BAIN / BAIML and BISPL respectively was recognised as loss under exceptional items.

Further, during the year ended March 31, 2018, the transaction of BISPL stake transfer to Network i2i has been consummated.

(vii) During the year ended March 31, 2017, the Company had entered into a scheme of amalgamation for the merger of Telenor (India) Communication Private Limited with the Company. The said transaction is subject to requisite regulatory approvals and other closing conditions.

(viii) During the year ended March 31, 2017, Bharti Telemedia Limited, a subsidiary of the Company, had allotted 475 Mn shares to the Company against a consideration of ₹4,750.

(ix) During the year ended March 31, 2017, the Company had sold 400 Mn shares in BIL, against a consideration aggregating to ₹130,000 and accordingly the excess of cost of investment over the proceeds (net of associated costs, taxes and regulatory levies) amounting to ₹25,375 was recognised as loss under exceptional items. Subsequent to the transaction, the shareholding of the Company in BIL had reduced to 50.3%.

(x) During the year ended March 31, 2017, Bharti Infratel Limited ('BIL'), a subsidiary of the Company had bought back approx. 47.05 Mn shares against a consideration of ₹425 per share. Out of which the Company had tendered approx. 29.10 Mn shares and received the consideration of ₹12,368 and accordingly, the excess of proceeds (net of associated costs, taxes and levies) over the cost of investment amounting to ₹1,687 was recognised as gain and disclosed as other income.

(xi) During the year ended March 31, 2017, the Company acquired rights to use spectrum in the 1800 MHz band for six circles against a consideration of ₹46,530 from Videocon Telecommunications Limited.

(xii) During the year ended March 31, 2017, the Company acquired rights to use spectrum in the 2300 MHz band for seven circles against a consideration of ₹34,840 from Aircel Limited and its subsidiaries Dishnet Wireless Limited.

(xiii) During the year ended March 31, 2017, the Company was allotted 155.60 MHz spectrum across 1800 / 2100 / 2300 MHz. Consequently, the Company had paid amount of ₹67,764 upfront and opted the deferred payment option for ₹66,764.

(xiv) During the year ended March 31, 2017, the Company had acquired 100% equity stake of Augere Wireless Broadband India Private Limited ('AWBPL'). Further, with effect from February 15, 2017, AWBPL had merged with the Company through the scheme of arrangement under Sections 391 to 394 of the Companies Act, 1956. Accordingly, AWBPL had ceased to exist and had merged with the Company. Accordingly entire assets (mainly spectrum amounting to ₹899), liabilities and the differential value of equity in the books of AWBPL; have been recognised by the Company as the date of the transaction at same carrying values as in the books of AWBPL. The difference of ₹445 between the share capital and the carrying values of investment in AWBPL in the books of the Company had been adjusted with general reserve.

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – '₹'; unless stated otherwise)

6. Property, plant and equipment ('PPE')

The following table presents the reconciliation of changes in the carrying value of PPE for the year ended March 31, 2018 and 2017:

₹ in millions

	Leasehold improvement	Building	Land	Plant and equipment	Furniture & fixture	Vehicles	Office equipment	Computer	Total

12. Income taxes

The major components of Income Tax (Credit)/expense are:

	For the year ended 31 March, 2018	For the year ended 31 March, 2017
Current Income tax		
For the Year	29	95
Adjustments for prior periods	(2,233)	(140)
	(2,204)	**(45)**
Deferred tax		
Origination and reversal of temporary differences	(4,737)	17,455
Effect of change in tax rate	425	-
Adjustments for prior periods	(1,088)	(3,249)
	(5,400)	14,206
Income tax (credit)/expense	**(7,604)**	**14,161**

The reconciliation between the amount computed by applying the statutory income tax rate to the (loss) / profit before tax and income tax (credit) / expense in summarised below:

	For the year ended 31 March, 2018	For the year ended 31 March, 2017
Loss before tax	(6,812)	(85,095)
Enacted tax rates in India	34.61%	34.61%
Tax expense @ 34.608%	(2,358)	(29,450)
Effect of:		
Tax holiday	(251)	(144)
Effect of changes in tax rate	425	-
Adjustments in respect to previous years	(3,321)	(3,389)
Tax for which no credit is allowed	472	469
(Income) / expense not (taxable) / deductible (net)	(2,600)	46,380
Others	29	295
Income tax (credit) / expense	**(7,604)**	**14,161**

The analysis of deferred tax assets / (liabilities) is as follow:

	As of 31 March, 2018	As of 31 March, 2017
Deferred tax asset / (liability)

Depreciation / amortisation on PPE / intangible assets	(92,961)	(76,574)
Rates and taxes	1,431	1,527
Others	47	1,018
Net deferred tax asset	**14,244**	**8,808**

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

	For the year ended 31 March, 2018	For the year ended 31 March, 2017
Deferred tax income / (expense)		
Provision for impairment of debtors / advances	3,149	2,542
Carry forward losses	18,726	1,575
Employee benefits	58	204
MAT credit	(68)	1,218
Lease rent equalisation	130	289
Fair valuation of financial instruments and exchange differences	857	926
Depreciation / amortisation on PPE / intangible assets	(16,387)	(22,498)
Rates and taxes	(96)	1,527
Others	(969)	11
Net deferred tax income / (expense)	**5,400**	**(14,206)**

The movement in deferred tax assets/(liabilities) during the year is as follows:

	For the year ended 31 March, 2018	For the year ended 31 March, 2017
Opening balance	**8,808**	**23,070**
Tax (credit)/expense recognised in profit or loss	5,400	(14,206)
Tax (credit)/expense recognised in OCI	(30)	11
Others	66	(67)
Closing balance	**14,244**	**8,808**

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and carry forward of losses/credits (including capital losses) can be utilised. Accordingly, the company has not recognised deferred tax assets in respect of carry forward of capital tax losses/credits of ₹330,358 Mn and ₹317,344 Mn as of March 31, 2018 and March 31, 2017, respectively as it is not probable that capital taxable profits will be available in future.

Above balance of capital tax losses as of March 31, 2018 and March 31, 2017 expires unutilised as follows:

Expiry date	As of 31 March, 2018	As of 31 March, 2017
Above five years	330,358	317,344

13. Other non-financial assets

Non-current

	As of 31 March, 2018	As of 31 March, 2017
Advances (net)#	24,404	25,749

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

Dividend

	As of 31 March, 2018	As of 31 March, 2017
A Declared and paid during the year		
Interim dividend for 2017-18 : ₹2.84 per share (including dividend distribution tax @ 20.36% of ₹2,311)*	13,664	-
Final dividend for 2016-17 : ₹1.00 per share (including dividend distribution tax @ 20.36% of ₹814)*	4,811	-
Final dividend for 2015-16 : ₹1.36 per share (including dividend distribution tax @ 20.36% of ₹1,107)*	-	6,543
	18,475	**6,543**
B Proposed dividend		
Final dividend for 2017-18: ₹2.50 per share (2016-17 : ₹1.00 per share)	9,993	3,997
Dividend distribution tax @ 20.56% (2016-17 @ 20.36%)	2,034	814
	12,027	**4,811**

The proposed dividend being subject to approval at respective annual general meeting, accordingly no corresponding liability has been recognised in the respective financial year.

*However against this, the Company has availed credit of ₹3,125 and ₹1,087 during the year ended March 31, 2018 and March 31, 2017 respectively, on account of dividend distribution tax on dividend received from subsidiary companies.

17. Reserve and surplus

a) **Retained earnings:** Retained earnings represent the amount of accumulated earnings of the Company, and re-measurement differences on defined benefit plans and gains / (losses) on common control transactions and any transfer from general reserve.

b) **General reserve:** The Company has transferred a portion of its profit before declaring dividend in respective prior years to general reserve, as stipulated under the erstwhile Companies Act 1956. Mandatory transfer to general reserve is not required under the Companies Act 2013 ('Act').

Further, on exercise of the stock options, the difference between the consideration (i.e. the exercise price and the related amount of share-based payment reserve) and the cost (viz. related amount of loan provided to Bharti Airtel Welfare Trust) of the corresponding stock options, is transferred to general reserve.

The difference between the share capital and the carrying values of the investment pursuant to the scheme of arrangement under sections 391 to 394 of the Companies Act, 1956 with respect to the amalgamation of Augere Wireless Broadband Private Limited has been recognised in general reserve.

c) **Business restructuring reserve:** It represents mainly the excess of the fair values over the original book values of the assets transferred to one of its subsidiary Bharti Infratel Limited pursuant to the scheme of arrangement under sections 391 to 394 of the Companies Act, 1956.

d) **Debenture redemption reserve:** Pursuant to the provisions of the Act, the Company is required to create debenture redemption reserve out of the profits and is to be utilised for the purpose of redemption of debentures. On redemption of the debentures, the related amount of this reserve gets transferred to retained earnings.

e) **Capital reserve:** It mainly includes capital reserve acquired pursuant to the scheme of arrangement under sections 391 to 394 of the Companies Act, 1956 with respect to the amalgamation (pooling of interest) of Airtel Broadband Services Private Limited.

Note: In absence of any specific provision under Ind AS with respect to court schemes, and the fact that the court schemes are part of the law, accounting prescribed therein will continue to prevail.

4	Amount of interest accrued and remaining unpaid at the end of each accounting year	0	0
5	Amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under section 23 of the MSMED Act, 2006	-	-

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

23 Contingent liabilities and commitments

(i) Contingent liabilities

Claims against the Company not acknowledged as debt:

	As of 31 March, 2018	As of 31 March, 2017
(i) Taxes, duties and other demands (under adjudication / appeal / dispute)		
-Sales Tax and Service Tax	8,738	11,245
-Income Tax	9,951	12,527
-Customs Duty	4,883	4,317
-Entry Tax	6,010	5,509
-Stamp Duty	404	404
-Municipal Taxes	121	121
-Department of Telecom ('DoT') demands	40,344	36,540
-Other miscellaneous demands	1,385	962
(ii) Claims under legal cases including arbitration matters		
-Access charges / Port charges	10,021	8,733
-Others	599	599
	82,456	**80,957**

Further, refer note f(iv), f(v) and f(vi) below for other DoT matter.

The category wise detail of the contingent liability has been given below:-

a) Sales and Service Tax

The claims for sales tax comprised of cases relating to the appropriateness of declarations made by the Company under relevant sales tax legislations which were primarily procedural in nature and the applicable sales tax on disposals of certain property and equipment items. Pending final decisions, the Company has deposited amounts under protest with statutory authorities for certain cases.

The service tax demands relate to cenvat claimed on tower and related material, levy of service tax on SIM cards and employee talk time, cenvat credit disallowed for procedural lapses and usage in excess of 20% limit.

b) Income Tax demand

Income tax demands mainly include the appeals filed by the Company before various appellate authorities against the disallowance by income tax authorities of certain expenses being claimed and non-deduction of tax at source with respect to pre-paid dealers / distributor's margin.

c) Access charges / Port charges

(i) Despite the interconnect usage charges ('IUC') rates being governed by the Regulations issued by Telecom Regulatory Authority of India ('TRAI'); BSNL had raised a demand for IUC at the rates contrary to the regulations issued by TRAI in 2009. Accordingly, the Company filed a petition against the demand with the TDSAT which allowed payments by the Company based on the existing regulations. The matter was then challenged by BSNL and is currently pending with the Hon'ble Supreme Court.

(ii) The Hon'ble TDSAT allowed BSNL to recover distance based carriage charges. The private telecom operators have jointly filed an appeal against the said order and the matter is currently pending before the Hon'ble Supreme Court.

(iii) BSNL challenged before TDSAT the port charges reduction contemplated by the regulations issued by TRAI in 2007 which passed its judgment in favour of BSNL. The said judgment has been challenged by the private operators in Hon'ble Supreme Court. Pending disposal of the said appeal, in the interim, private operators were allowed to continue paying BSNL as per the revised rates i.e. TRAI regulation issued in 2007, subject to the bank guarantee being provided for the disputed amount. The rates were further reduced by TRAI in 2012 which was challenged by BSNL before the

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

Hon'ble Delhi High Court. The Hon'ble Delhi High Court, in the interim, without staying the rate revision, directed the private operators to secure the difference between TRAI regulation of 2007 and 2012 rates by way of bank guarantee pending final disposal of appeal.

d) Customs Duty

The custom authorities, in some states, demanded custom duty for the imports of special software on the ground that this would form part of the hardware on which it was pre-loaded at the time of import. The view of the Company is that such imports should not be subject to any custom duty as it is operating software exempt from any custom duty. In response to the application filed by the Company, the Hon'ble Central Excise and Service Tax Appellate Tribunal ('CESTAT') has passed an order in favour of the custom authorities. The Company has filed an appeal with Hon'ble Supreme Court against the CESTAT order.

e) Entry Tax

In certain states, an entry tax is levied on receipt of material from outside the state. This position has been challenged by the Company in the respective states, on the grounds that the specific entry tax is ultra vires the Constitution. Classification issues has also been raised, whereby, in view of the Company, the material proposed to be taxed is not covered under the specific category.

During the year ended March 31, 2017, the Hon'ble Supreme Court of India upheld the constitutional validity of entry tax levied by few States. However, Supreme Court did not conclude certain aspects such as present levies in each State is discriminatory in nature or not, leaving them open to be decided by regular benches of the Courts. Pending disposition by the regular benches, the Company has decided to maintain status-quo on its position and hence continues to disclose it as contingent liability.

f) DoT demands

(i) Demand for license fees pertaining to computation of Adjusted Gross Revenue ('AGR') and the interest thereon, due to difference in its interpretation. The definition of AGR is sub-judice and under dispute since 2005 before the TDSAT. TDSAT had pronounced its judgment in 2015, quashed all demands raised by DoT and directed DoT to rework the demands basis the principles enunciated in its judgment. Subsequently, the Union of India ('UOI') and the Company along with various other operators have filed appeals / cross appeals before the Hon'ble Supreme Court of India against the TDSAT judgment. In 2016, all the appeals were tagged together and Hon'ble Supreme Court has permitted DOT to raise demands with a direction not to enforce any demand till the final adjudication of the matter by Hon'ble Supreme Court. Accordingly, DoT has raised the demand basis special audit done by DoT and Comptroller and Auditor General of India. The contingent liability includes such demand and interest thereto (excluding certain contentious matters, penalty and interest thereto) for the financial year for which demands have been received by the Company.

(ii) Demands for the contentious matters in respect of subscriber verification norms and regulations including validity of certain documents allowed as proof of address / identity.

(iii) Penalty for alleged failure to meet certain procedural requirements for EMF radiation self-certification compliance.

The matters stated above are being contested by the Company and based on legal advice, the Company believes that it has complied with all license related regulations and does not expect any financial impact due to these matters.

In addition to the amounts disclosed in the table above, the contingent liability on DOT matters includes the following:

(iv) Post the Hon'ble Supreme Court judgment in 2011, on components of AGR for computation of license fee, based on the legal advice, the Company believes that the foreign exchange gain should not be included in AGR for computation of license fee thereon. Further as per TDSAT judgement in 2015, foreign exchange fluctuation does not have any bearing on the license fees. Accordingly, the license fee on foreign exchange gain has not been provided in the financial statements. Also, due to ambiguity of interpretation of 'foreign exchange differences', the license fee impact on such exchange differences is not quantifiable. The matter is currently pending adjudication by Hon'ble Supreme Court.

(v) On January 8, 2013, DoT issued a demand on the Company for ₹51,353 towards levy of one time spectrum charge. The demand includes a retrospective charge of ₹8,940 for holding GSM Spectrum beyond 6.2 MHz for the period from July 1, 2008 to December 31, 2012 and also a prospective charge of ₹42,413 for GSM spectrum held beyond 4.4 MHz for the period from January 1, 2013, till the expiry of the initial terms of the respective licenses.

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

In the opinion of the Company, inter-alia, the above demand amounts to alteration of financial terms of the licenses issued in the past. Based on a petition filed by the Company, the Hon'ble High Court of Bombay, vide its order dated January 28, 2013, has directed the DoT to respond and not to take any coercive action until the next date of hearing. The DoT has filed its reply and the matter is currently pending with the Hon'ble High Court of Bombay. The Company, based on independent legal opinions, till date has not given any effect to the above demand.

(vi) DoT had issued notices to the Company (as well as other telecom service providers) to stop provision of services (under 3G Intra Circle Roaming ('ICR') arrangements) in the service areas where such service providers had not been allocated 3G Spectrum and levied a financial penalty of ₹3,500 on the Company. The Company contested the notices in response to which TDSAT in 2014 held 3G ICR arrangements to be competent and compliant with the licensing conditions and quashed the notice imposing penalty. The DoT has challenged the order of TDSAT before the Hon'ble Supreme Court which is yet to be listed for hearing.

Guarantees:

Guarantees outstanding as of March 31, 2018 and March 31, 2017 amounting to ₹123,796 and ₹123,614 respectively have been issued by banks and financial institutions on behalf of the Company. These guarantees include certain financial bank guarantees which have been given for subjudice matters/compliance with licensing requirements, the amount with respect to these have been disclosed under capital commitments, contingencies and liabilities, as applicable, in compliance with the applicable accounting standards.

(ii) Commitments

Capital commitments

The Company has contractual commitments towards capital expenditure (net of related advances) of ₹105,618 and ₹69,623 as of March 31, 2018 and March 31, 2017 respectively.

Lease commitments

a) Operating lease

The future minimum lease payments ('FMLP') obligations are as follows:-

As Lessee

	As of 31 March, 2018	As of 31 March, 2017
Not later than one year	77,510	72,725
later than one year but not later than five years	273,717	277,273
Later than five years	58,971	90,895
	410,198	**440,893**
Lease rentals (including lease equalisation adjustment)	66,386	70,638

The above lease arrangements are mainly pertaining to passive infrastructure. Certain of these lease agreements have escalation clause upto 25% and includes option of renewal from 1 to 15 years.

As lessor

(i) The Company has entered into non–cancellable lease arrangements to provide dark fiber on indefeasible right of use ('IRU') basis. Due to the nature of the transaction, it is not possible to compute gross carrying amount, depreciation for the year and accumulated depreciation of the asset given on operating lease as of March 31, 2018 and accordingly, the related disclosures are not provided.

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

(ii) The FMLP receivables against assets (other than above IRU assets) are as follows:

As Lessor

	As of 31 March, 2018	As of 31 March, 2017
Not later than one year	208	221
Later than one year but not later than five year	984	929
Lather than five years	114	430
	1,306	**1,580**

The above lease arrangements are mainly pertaining to premises given to group companies.

b) Finance lease

As lessee

Finance lease obligation of the Company as of March 31, 2018 is as follows:-

	Future minimum lease payments	Interest	Present value
Not later than one year	282	29	253
Later than one year but not later than five years	148	10	138
	430	**39**	**391**

Finance lease obligation of the Company as of March 31, 2017 is as follows:

	Future minimum lease payments	Interest	Present value
Not later than one year	1,044	111	933
Later than one year but not later than five years	1,387	223	1,164
	2,431	**334**	**2,097**

The above lease arrangements are mainly pertaining to various items of plant and equipment.

As lessor

The future minimum lease payments receivable of the Company as of March 31, 2018 is as follows:-

	Future minimum lease payments	Interest	Present value
Not later than one year	176	16	160
Later than one year but not later than five years	89	6	83
	265	**22**	**243**

The future minimum lease payments receivable of the Company as of March 31, 2017 is as follows:-

	Future minimum lease payments	Interest	Present value
Not later than one year	133	25	107
Later than one year but not later than five years	189	17	172
	322	**42**	**279**

The above lease arrangements are mainly pertaining to various network equipments.

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

24. Revenue from operations

	For the year ended 31 March, 2018	For the year ended 31 March, 2017
Service revenue	536,287	622,637
Sale of product	343	126
	536,630	**622,763**

25. Network operating expenses

	For the year ended 31 March, 2018	For the year ended 31 March, 2017
Passive infrastructure charges	64,410	68,451
Power and fuel	45,647	45,526
Repare and maintenance	16,227	21,240
Internet, bandwidth and leasedline charges	7,061	4,834
Others*	6,167	5,309
	139,512	**145,360**

*It includes charges towards managed services, installation, insurance and security.

26. Employee benefits expense

	For the year ended 31 March, 2018	For the year ended 31 March, 2017
Salaries and bonus	14,844	14,731
Contribution to provident and other funds	668	672
Staff welfare expenses	542	611
Define benefit plan / other long-term benefits	448	557
Share base payment expense		
Equity-settled plans	337	298
Cash-settled plans	12	157
Others*	358	359
	17,209	**17,385**

*It includes recruitment expenses and training expenses.

26.1 Share-based payment plans

The following table provides an overview of all existing share option plans of the Company:

Scheme	Plan	Vesting period (years)	Contractual term (years)
Equity settled Plans			
Scheme I	2006 Plan	1 - 5	7
Scheme 2005	2008 Plan & Annual Grant Plan (AGP)	1 - 3	7
Scheme 2005	Performance Share Plan (PSP) 2009 Plan	3 - 4	7
Scheme 2005	Special ESOP & Restricted Share Units (RSU) Plan	1 - 5	7
Scheme 2005	Long Term Incentive (LTI) Plans	1 - 3	7
Cash settled Plans			
Performance Unit Plan (PUP)	PUP 2013 - PUP 2015	1 - 4	3-5

The stock options vesting are subject to service and certain performance conditions mainly pertaining to certain financial parameters.

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

The movement in the number of stock options and the related weighted average exercise prices are as follows:

	For the year ended March 31, 2018		For the year ended March 31, 2017	
	Number of share options ('000)	Weighted average exercise price (₹)	Number of share options ('000)	Weighted average exercise price (₹)
2006 Plan				
Outstanding at beginning of year	205	5.00	305	5.00
Granted	-	-	-	-
Exercised	(90)	5.00	(100)	5.00
Forfeited / expired	-	-	-	-
Outstanding at end of year	115	5.00	205	5.00
Exercisable at end of year	2	5.00	36	5.00
2008 Plan & AGP				
Outstanding at beginning of year	-	-	639	402.50
Granted	-	-	-	-
Exercised	-	-	-	-
Forfeited / expired	-	-	(639)	402.50
Outstanding at end of year	-	-	-	-
Exercisable at end of year	-	-	-	-
PSP 2009 Plan				
Outstanding at beginning of year	6	5.00	53	5.00
Granted	-	-	-	-
Exercised	(3)	5.00	(37)	5.00
Forfeited / expired	(3)	5.00	(10)	5.00
Outstanding at end of year	-	-	6	5.00
Exercisable at end of year	-	-	5	5.00
Special ESOP & RSU Plan				
Outstanding at beginning of year	34	5.00	126	5.00
Granted	-	-	-	-
Exercised	(33)	5.00	(91)	5.00
Forfeited / expired	(1)	5.00	(1)	5.00
Outstanding at end of year	-	-	34	5.00
Exercisable at end of year	-	-	34	5.00
LTI Plans				
Outstanding at beginning of year	2,002	5.00	1,709	5.00
Granted	1,571	-	820	-
Exercised	(406)	5.00	(308)	5.00
Forfeited / expired	(189)	5.00	(219)	5.00
Outstanding at end of year	2,978	5.00	2,002	5.00
Exercisable at end of year	567	5.00	358	5.00
Performance Unit Plans				
Outstanding at beginning of year	1,401	-	3,118	-
Granted	(0)	-	9	-
Exercised	(966)	-	(1,257)	-
Forfeited / expired	(37)	-	(469)	-
Outstanding at end of year	398	-	1,401	-
Exercisable at end of year	-	-	-	-

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

The details of weighted average remaining contractual life, weighted average fair value and weighted average share price for the options are as follows:

Weighted average	For the year ended 31 March, 2018	For the year ended 31 March, 2017
Remaining contractual life for the options outstanding as of (years)	0.35 to 6.37	0.10 to 5.65
Fair value for the options granted during the year ended (₹)	338.54 to 409.76	338.50 to 379.25
Share price for the options exrcised during the year ended (₹)	367.14 to 457.41	296.90 to 466.38

The carrying value of cash settled plans liability is ₹66 and ₹141 as of March 31, 2018 and March 31, 2017, respectively.

The fair value of options is measured using Black-Scholes valuation model. The key inputs used in the measurement of the grant date fair valuation of equity settled plans and fair value of cash settled plans are given in the table below:

	For the year ended 31 March, 2018	For the year ended 31 March, 2017
Risk free interest rates	6.3% to 6.78%	5.79% to 6.86%
Expected life	10 to 60 months	4 to 60 months
Volatility	25.91% to 30.16%	27.08% to 27.59%
Dividend yield	0.24% to 0.25%	0.39% to 0.63%
Wtd average excercise price (₹)	0-5	0-5

The expected life of the stock options is based on the Company's expectations and is not necessarily indicative of exercise patterns that may actually occur. The expected volatility reflects the assumption that the historical volatility over a period similar to the expected life of the options is indicative of future trends, which may not necessarily be the actual outcome. Further, the expected volatility is based on the weighted average volatility of the comparable benchmark companies.

26.2 Employee benefits

The details of significant employee benefits are as follows:

	For the year ended 31 March, 2018		For the year ended 31 March, 2017	
	Gratuity	Compensated absences	Gratuity	Compensated absences
Obligation				
Balance as at beginning of the year	1827	789	1668	730
Current service cost	244	138	256	150
Interest cost	135	58	133	58
Benefits paid	(241)	(106)	(273)	(113)
Transfers	(21)	(3)	7	4
Remeasurements	(87)	(127)	36	(40)
Present value of obligation	**1,857**	**749**	**1,827**	**789**
Current portion	513	749	498	789
Non-current portion	1,344	-	1,329	-

The expected contribution for the year ended March 31, 2018 and 2017 for gratuity plan is ₹391 and ₹389 respectively.

Amount recognised in other comprehensive income

	For the year ended 31 March, 2018	For the year ended 31 March, 2017
Experience (gains) / losses	(15)	15
Losses / (gains) from change in demographic assumptions	15	(20)
(Gains) / losses from change in financial assumptions	(87)	41
Remeasurements on liability	**(87)**	**36**

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

Due to its defined benefit plans, the Company is exposed to the following significant risks:

Changes in bond yields - A decrease in bond yields will increase plan liability.

Salary risk - The present value of the defined benefit plans liability is calculated by reference to the future salaries of the plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

The financial (per annum rates) and demographic assumptions used to determine defined benefit obligations are as follows:

	As of 31 March, 2018	As of 31 March, 2017
Discount rate	7.85%	7.40%
Rate of return on plan assets	N.A.	N.A.
Rate of salary increase	9.00%	10.00%
Rate of attrition	20% to 24%	21% to 29%
Retirement age	58	58

Sensitivity analysis

The Company regularly assesses these assumptions with the projected long-term plans and prevalent industry standards.

The impact of sensitivity due to changes in the significant actuarial assumptions on the defined benefits obligations is given in the table below:

		As of 31 March, 2018		As of 31 March, 2017	
	Change in assumption	Gratuity	Compensated absences	Gratuity	Compensated absences
Discount Rate	+1%	(61)	(32)	(59)	(33)
	-1%	67	34	64	36
Salary Growth Rate	+1%	65	34	62	(33)
	-1%	(61)	(32)	(59)	36

The above sensitivity analysis is determined based on a method that extrapolates the impact on the net defined benefits obligations, as a result of reasonable possible changes in the significant actuarial assumptions. Further, the above sensitivity analysis is based on a reasonably possible change in a particular under-lying actuarial assumption, while assuming all other assumptions to be constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated.

The table below summarises the maturity profile and duration of the gratuity liability:

	As of 31 March, 2018	As of 31 March, 2017
Within one year	513	498
Within one - three years	535	569
within three - five years	318	327
Above five Years	489	433
Weighted average duration (in years)	3.82	3.42

27. Sales and marketing expenses

	For the year ended 31 March, 2018	For the year ended 31 March, 2017
Sales commission and distribution	22,211	21,957
Advertisement and marketing	5,787	7,200
Business and promotion	1,516	1,706
Other ancillary expenses	1,005	1,457
	30,519	**32,320**

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

28. Other expenses

	For the year ended 31 March, 2018	For the year ended 31 March, 2017
Content costs	5,698	5,934
Customer care expenses	4,668	3,540
IT expenses	3,764	4,754
Collection and recovery expenses	3,690	3,955
Legal and professional fees^	2,653	3,171
Provision for doubtful debts	8,060	7,349
Travelling and conveyance	888	1,084
Bad debts written off	713	329
Cost of good sold	277	58
Charity and donation*	528	1,146
Others#	5,232	7,204
	36,171	**38,524**

* As per the requirements of section 135 of the Companies Act, 2013, the Company was required to spend an amount of ₹2,145 and ₹2,079 for the year ended March 31, 2018 and 2017 on corporate social responsibility expenditure. During the year ended March 31, 2018 and 2017, the Company has spent in cash an amount of ₹245 and ₹56 towards education and sanitation respectively. Further, amount paid to Prudent Electoral Trust (formerly known as Satya Electoral Trust) for political purpose amounting to ₹250 and ₹170 during the year ended March 31, 2018 and 2017 respectively.
# It includes rent, printing and stationary, security, rent and communication expenses etc.

^ Details of Auditor's remuneration which included in legal and professional fees:

	For the year ended 31 March, 2018	For the year ended 31 March, 2017
- Audit fee*	66	76
- Reimbursement of expenses	5	6
- Other services*	13	9
	84	**91**

* Excluding service tax / goods and service tax

29. Depreciation and amortisation

	For the year ended 31 March, 2018	For the year ended 31 March, 2017
Depreciation	80,063	77,663
Amortisation	50,423	44,371
	130,486	**122,034**

30. Finance costs and income

	For the year ended 31 March, 2018	For the year ended 31 March, 2017
Finance costs		
Interest expense	47,553	42,902
Net loss on derivative financial instruments	1,959	2,244
Other finance charges*	9,595	7,400
	59,107	**52,546**
Finance income		
Dividend income	4,200	16,511
Interest income	3,360	1,731
Net gain on FVTPL investments	35	1,725
Net exchange gain	822	3,454
	8,417	**23,421**

*It includes bank charges, trade finance charges, charges relating to derivative instruments and interest charges towards sub judice matters.

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

31. Exceptional items

Exceptional items comprise of the following:

(i) For the year ended March 31, 2018:

a. Charge of ₹1,572 towards operating costs on network re-farming and up-gradation program
b. Provision of ₹720 towards one major delinquent receivable balance
c. Charge of ₹3,749 mainly due to levies and taxes pertaining to internal restructuring

(ii) For the year ended March 31, 2017:

a. Charge of ₹2,396 towards operating costs (including accelerated depreciation) on network re-farming and up-gradation program
b. Charge of ₹2,920 resulting from reassessment of the useful life of certain categories of network assets of the Company due to technological advancements
c. Net charge aggregating to ₹7,506 pertaining to regulatory levies related assessment / provisions, settlement of tax related contingent liability and reconciliation of balances
d. Loss of ₹159,886 pertains to internal restructuring and divestment

Tax expense includes:

(a) Tax benefit of ₹2,129 and ₹5,864 for the year ended March 31, 2018 and 2017 respectively, on above exceptional items

(b) Tax benefit of Nil and ₹1,892 for the year ended March 31, 2018 and 2017 respectively, on account of re-assessment of tax provisions for previous periods

32. Earnings per share ('EPS')

The details used in computation of basic and diluted EPS:

	As of 31 March, 2018	As of 31 March, 2017
Weighted average Shares outstanding ('000) for basic / diluted EPS	3,997,400	3,997,400
Profit / (loss) for the year	792	(99,256)

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

33. Segment reporting

The Company's operating segments are organised and managed separately through the respective business managers, according to the nature of products and services provided with each segment representing a strategic business unit. These business units are reviewed by the Chairman of the Company (Chief Operating Decision Maker - 'CODM').

The amounts reported to CODM are based on the accounting principles used in the preparation of financial statements as per Ind AS. Segment's performance is evaluated based on segment revenue and segment result viz. profit or loss from operating activities before exceptional items and tax. Accordingly, finance costs / income, non – operating expenses and exceptional items are not allocated to individual segment.

Inter-segment pricing and terms are reviewed and changed by the management to reflect changes in market conditions and changes to such terms are reflected in the period in which the changes occur. Inter-segment revenues are eliminated upon consolidation of segments and reflected in the 'Eliminations' column.

Segment assets / liabilities comprise assets / liabilities directly managed by each segment. Segment assets primarily includes receivables, property, plant and equipment, capital work-in-progress, intangibles assets, intangible assets under development, non-current investments, inventories and cash and cash equivalents. Segment liabilities primarily includes operating liabilities. Segment capital expenditure comprises of additions to PPE, CWIP, intangible assets, intangible assets under development, and capital advances.

The reporting segments of the Company are as below:

Mobile Services: These services cover voice and data telecom services provided through wireless technology (2G / 3G / 4G) in India. This includes the captive national long distance networks which primarily provide connectivity to the mobile services business in India. This also includes intra-city fibre networks.

Airtel Business: These services cover end-to-end telecom solutions being provided to large Indian and global corporations by serving as a single point of contact for all telecommunication needs across data and voice (domestic as well as international long distance), network integration and managed services.

Homes Services: These services cover voice and data communications through fixed-line network and broadband technology.

Unallocated: Unallocated items include expenses / results, assets and liabilities of corporate headquarters of the Company, non-current investment, current taxes, deferred taxes, borrowings and certain financial assets and liabilities, not allocated to the operating segments.

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – '₹'; unless stated otherwise)

Summary of the segmental information for the year ended and as of March 31, 2018 is as follows:

Particulars	Mobile Services	Airtel Business	Homes Services	Unallocated	Eliminations	Total
Revenue from external customers	420,208	91,899	24,523	-	-	536,630

Other related parties / fellow companies

Outstanding balances at period end are un-secured and settlement occurs in cash.

KMP are those persons having authority and responsibility for planning, directing and controlling the activities of the Company, directly or indirectly, including any director, whether executive or otherwise. Remuneration to key management personnel were as follows:

	For the year ended 31 March, 2018	For the year ended 31 March, 2017
Short-term employee benefits	263	250
Performance linked incentive ('PLI')#	138	118
Post-employment benefit	28	26
Share-based payment	62	62
	491	**456**

Value of PLI considered above represents incentive at 100% performance level. However, same will be paid on the basis of actual performance parameters in next year. Additional provision of ₹21 and ₹28 has been recorded in the books towards PLI for the year ended March 31, 2018 and March 31, 2017 respectively. During the year ended March 31, 2018 and 2017, PLI of ₹143 and ₹116 respectively, pertaining to previous year has been paid.

As the liabilities for the gratuity and compensated absences are provided on an actuarial basis, and calculated for the Company as a whole rather than each of the individual employees, the said liabilities pertaining specifically to KMP are not known and hence, not included in the above table.

In addition to above, ₹1,122 thousand and ₹313 thousand have been paid as dividend to key management personnel during the year ended March 31, 2018 and March 31, 2017 respectively.

The Company has agreed to ensure appropriate financial support only if and to the extent required by its subsidiaries (namely, Bharti Airtel Services Limited, Bharti Telemedia Limited, Airtel Payments Bank Limited, Bharti Teleports Limited, Bharti Airtel Lanka (Private) Limited and Bharti Airtel International (Netherlands) B.V. including its subsidiaries).

35. Financial and capital risk

1. Financial risk

The business activities of the Company expose it to a variety of financial risks, namely market risks (that is, foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Company's risk management strategies focus on the un-predictability of these elements and seek to minimise the potential adverse effects on its financial performance. Further, the Company uses certain derivative financial instruments to mitigate some of these risk exposures (as discussed below in this note).

The financial risk management for the Company is driven by the Company's senior management ('CSM'), in close co-ordination with the operating entities and internal / external experts subject to necessary supervision. The Company does not undertake any speculative transactions either through derivatives or otherwise. The CSM are accountable to the Board of Directors and Audit Committee. They ensure that the Company's financial risk-taking activities are governed by appropriate financial risk governance frame work, policies and procedures. The BoD of the respective operating entities periodically reviews the exposures to financial risks, and the measures taken for risk mitigation and the results thereof.

(i) Foreign currency risk

Foreign exchange risk arises on all recognised monetary assets and liabilities, and any highly probable forecasted transactions, which are denominated in a currency other than the functional currency of the Company. The Company has foreign currency trade payables, receivables and borrowings. However, foreign exchange exposure mainly arises from borrowings and trade payables denominated in foreign currencies.

The foreign exchange risk management policy of the Company requires it to manage the foreign exchange risk by transacting as far as possible in the functional currency. Moreover, the Company monitors the movements in currencies in which the borrowings / capex vendors are payable and manage any related foreign exchange risk, which inter-alia include entering into foreign exchange derivative contracts - as considered appropriate and whenever necessary. For further details as to foreign currency borrowings, refer note 18. Further, for the details as to the fair value of various outstanding derivative financial instruments, refer note 36.

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

Foreign currency sensitivity

The impact of foreign exchange sensitivity on profit for the year and other comprehensive income is given in the table below:

	Change in currency exchange rate	Effect on profit before tax	Effect on equity (OCI)
For the year ended March 31, 2018			
US Dollars	+5%	(5,013)	-
	-5%	5,013	-
Others	+5%	15	-
	-5%	(15)	-
For the year ended March 31, 2017			
US Dollars	+5%	(5,244)	-
	-5%	5,244	-
Others	+5%	(2)	-
	-5%	2	-

The sensitivity disclosed in the above table is mainly attributable to, in case of to foreign exchange gains / (losses) on translation of USD denominated borrowings, derivative financial instruments, trade payables, and trade receivables.

The above sensitivity analysis is based on a reasonably possible change in the under-lying foreign currency against the respective functional currency while assuming all other variables to be constant.

Based on the movements in the foreign exchange rates historically and the prevailing market conditions as at the reporting date, the Company's management has concluded that the above mentioned rates used for sensitivity are reasonable benchmarks.

(ii) Interest rate risk

As the Company does not have exposure to any floating-interest bearing assets, or any significant long-term fixed-interest bearing assets, its interest income and related cash inflows are not affected by changes in market interest rates. Consequently, the Company's interest rate risk arises mainly from borrowings.

Borrowings

Borrowings with floating and fixed interest rates expose the Company to cash flow and fair value interest rate risk respectively. However, the short-term borrowings of the Company do not have a significant fair value or cash flow interest rate risk due to their short tenure. Accordingly, the components of the debt portfolio are determined by the CSM in a manner which enables the Company to achieve an optimum debt-mix basis its overall objectives and future market expectations.

The Company monitors the interest rate movement and manages the interest rate risk based on its risk management policies, which inter-alia include entering into interest swaps contracts - as considered appropriate and whenever necessary.

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

Interest rate sensitivity of borrowings

The impact of the interest rate sensitivity on profit before tax is given in the table below:

Interest rate sensitivity	Increase / decrease (basis points)	Effect on profit before tax
For the year ended March 31, 2018		
INR - borrowings	+100	(716)
	-100	716
US Dollar - borrowings		
	+25	(66)
	-25	66
For the year ended March 31, 2017		
INR - borrowings	+100	(468)
	-100	468
US Dollar - borrowings		
	+25	(57)
	-25	57

The sensitivity disclosed in the above table is attributable to floating-interest rate borrowings and the interest swaps.

The above sensitivity analysis is based on a reasonably possible change in the under-lying interest rate of the Company's borrowings in INR, USD (being the significant currencies in which it has borrowed funds), while assuming all other variables (in particular foreign currency rates) to be constant.

Based on the movements in the interest rates historically and the prevailing market conditions as at the reporting date, the Company's management has concluded that the above mentioned rates used for sensitivity are reasonable benchmarks.

(iii) Price risk

The Company invests its surplus funds in various mutual funds (debt fund, equity fund, liquid schemes and income funds etc.), short term debt funds, government securities and fixed deposits. In order to manage its price risk arising from investments, the Company diversifies its portfolio in accordance with the limits set by the risk management policies.

(iv) Credit risk

Credit risk refers to the risk of default on its obligation by the counter-party, the risk of deterioration of credit-worthiness of the counter-party as well as concentration risks of financial assets, and thereby exposing the Company to potential financial losses.

The Company is exposed to credit risk mainly with respect to trade receivables, investment in bank deposits / debt securities / mutual funds and derivative financial instruments.

Trade receivables

The Trade receivables of the Company are typically non-interest bearing un-secured and derived from sales made to a large number of independent customers. As the customer base is widely distributed both economically and geographically, there is no concentration of credit risk.

As there is no independent credit rating of the customers available with the Company, the management reviews the credit-worthiness of its customers based on their financial position, past experience and other factors. The credit risk related to the trade receivables is managed / mitigated by each business unit, basis the Company's established policy and procedures, by setting appropriate payment terms and credit period, and by setting and monitoring internal limits on exposure to individual customers. The credit period provided by the Company to its customers generally ranges from 14-30 days except Airtel business segment wherein it ranges from 7-90 days.

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

The Company uses a provision matrix to measure the expected credit loss of trade receivables, which comprise a very large numbers of small balances. Refer note 14 for details on the impairment of trade receivables. Based on the industry practices and the business environment in which the entity operates, management considers that the trade receivables are credit impaired if the payments are more than 90 days past due.

The ageing analysis of trade receivables as of the reporting date is as follows:

	Neither past due nor impaired	Past due but not impaired				Total
		Less than 30 days	30 to 60 days	60 to 90 days	Above 90 days	
March 31, 2018	18,320	14,119	5,207	4,052	1,498	**43,196**
March 31, 2017	15,997	8,624	3,970	3,203	324	**32,118**

The Company performs on-going credit evaluations of its customers' financial condition and monitors the credit-worthiness of its customers to which it grants credit in its ordinary course of business. The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amount due. Where the financial asset has been written-off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit and loss.

Financial instruments and cash deposits

The Company's treasury, in accordance with the board approved policy, maintains its cash and cash equivalents, deposits and investment in mutual funds and enters into derivative financial instruments - with banks, financial and other institutions, having good reputation and past track record, and high credit rating. Similarly, counter-parties of the Company's other receivables carry either no or very minimal credit risk. Further, the Company reviews the credit-worthiness of the counter-parties (on the basis of its ratings, credit spreads and financial strength) of all the above assets on an on-going basis, and if required, takes necessary mitigation measures.

(v) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. Accordingly, as a prudent liquidity risk management measure, the Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including bilateral loans, debt, and overdraft from both domestic and international banks at an optimised cost. It also enjoys strong access to domestic and international capital markets across debt and equity.

Moreover, the Company's senior management regularly monitors the rolling forecasts of the entities' liquidity reserve (comprising of the amount of available un-drawn credit facilities and Cash and cash equivalents) and the related requirements, to ensure they have sufficient cash on an on-going basis to meet operational needs while maintaining sufficient headroom at all times on its available un-drawn committed credit facilities, so that there is no breach of borrowing limits or relevant covenants on any of its borrowings. For details as to the Borrowings, refer note 18.

Based on past performance and current expectations, the Company believes that the Cash and cash equivalents, cash generated from operations and available un-drawn credit facilities, will satisfy its working capital needs, capital expenditure, investment requirements, commitments and other liquidity requirements associated with its existing operations, through at least the next twelve months.

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:-

	As of March 31, 2018						
	Carrying amount	On Demand	Less than 6 months	6 to 12 months	1 to 2 years	> 2 years	Total
Interest bearing borrowings*#	677,839	0	111,946	55,395	72,856	910,420	**1,150,617**
Other financial liabilities*	88,202	3,284	65,564	-	-	19,354	**88,202**

* It includes contractual interest payment based on interest rate prevailing at the end of the reporting period after adjustment for the impact of interest swaps, over the tenor of the borrowings.

Interest accrued but not due has been included in interest bearing borrowings and excluded from other financial liabilities.

The Company from time to time in its usual course of business guarantees certain indebtedness of its subsidiaries. Accordingly, as of March 31, 2018 and March 31, 2017 Company has issued corporate guarantee for debt / advance aaggregating to ₹353,114 and ₹340,855, respectively. The outflow in respect of these guarantees arises only on any default/ non-performance of the subsidiary with respect to the guaranteed debt / advance and substantial amount of such loans are due for payment after two years from the reporting date.

(vi) Reconciliation of liabilities whose cash flow movements are disclosed as part of financing activities in the statement of cash flows:

Balance Sheet caption	Statement of cash flows line item	April 1, 2017	Cash flows	Interest expense	Foreign exchange movement	Others	March 31, 2018
Borrowings*	Proceeds / repayments of borrowings (Including Short term)	160,783	58,315	-	298	1,077	220,473
Interest accrued but not due / derivative instruments	Interest and other finance charges paid	3,813	(4,291)	34,204	-	(9,968)	23,758

* It does not include deferred payment liabilities, finance lease obligation and bank overdraft.

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

2. Capital risk

The Company's objective while managing capital is to safeguard its ability to continue as a going concern (so that it is enabled to provide returns and create value for its shareholders, and benefits for other stakeholders), support business stability and growth, ensure adherence to the covenants and restrictions imposed by lenders and / or relevant laws and regulations, and maintain an optimal and efficient capital structure so as to reduce the cost of capital. However, the key objective of the Company's capital management is to, ensure that it maintains a stable capital structure with the focus on total equity, uphold investor; creditor and customer confidence, and ensure future development of its business activities. In order to maintain or adjust the capital structure, the Company may issue new shares, declare dividends, return capital to shareholders, etc.

The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions or its business requirements.

The Company monitors capital using a gearing ratio calculated as below:

	As of 31 March, 2018	As of 31 March, 2017
Borrowing	654,158	600,947
Less: Cash and cash equivalents	4,626	1,087
Less: Term deposits with bank	105	-
Net debt	**649,427**	**599,860**
Equity	1,028,609	1,012,073
Total capital	**1,028,609**	**1,012,073**
Capital and Net debt	**1,678,036**	**1,611,933**
Gearing Ratio	**38.7%**	**37.2%**

36. Fair value of financial assets and liabilities

The category wise details as to the carrying value and fair value of the Company's financial instruments are as follows:

	Level	Carrying Value as of		Fair Value as of	
		March 31, 2018	March 31, 2017	March 31, 2018	March 31, 2017
Financial Assets					
FVTPL					
Derivatives					
- Currency swaps, forward and option contracts	Level 2	195	187	195	187
- Interest rate swaps	Level 2	80	106	80	106
- Embedded derivatives	Level 2	-	554	-	554
Investments	Level 2	63	52	63	52
Amortised cost					
Loans and security deposits	Level 2	82,786	82,470	82,786	82,470
Trade receivables	Level 2	43,196	32,118	43,196	32,118
Cash and cash equivalents	Level 1	4,626	1,087	4,626	1,087
Other bank balances	Level 1	825	647	825	647
Other financial assets	Level 2	12,097	13,756	12,097	13,756
		143,868	**130,977**	**143,868**	**130,977**
Financial Liabilities					
FVTPL					
Derivatives					
- Currency swaps, forward and option contracts	Level 2	352	1,848	352	1,848
Amortised cost					
Borrowings- fixed rate	Level 1	94,423	64,082	92,984	65,008
Borrowings- fixed rate	Level 2	433,714	454,750	473,800	488,848
Borrowings- floating rate	Level 2	126,021	82,115	126,021	82,115
Trade payables	Level 2	176,990	149,698	176,990	149,698
Other financial liabilities	Level 2	111,883	84,030	111,883	84,030
		943,383	**836,523**	**982,030**	**871,547**

Notes to Standalone Financial Statements

(All amounts are in millions of Indian Rupees – ₹; unless stated otherwise)

The following methods / assumptions were used to estimate the fair values:

i. The carrying value of trade receivables, trade payables, short-term borrowings, floating-rate long-term borrowings, other current financial assets and liabilities approximate their fair value mainly due to the short-term maturities of these instruments being subject to floating-rates.

ii. Fair value of quoted financial instruments is based on quoted market price at the reporting date.

iii. The fair value of other long-term borrowings and non-current financial assets / liabilities is estimated by discounting future cash flows using current rates applicable to instruments with similar terms, currency, credit risk and remaining maturities.

iv. The fair values of derivatives are estimated by using pricing models, wherein the inputs to those models are based on readily observable market parameters. The valuation models used by the Company reflect the contractual terms of the derivatives (including the period to maturity), and market-based parameters such as interest rates, foreign exchange rates, volatility etc. These models do not contain a high level of subjectivity as the valuation techniques used do not require significant judgement and inputs thereto are readily observable.

During the year ended March 31, 2018 and March 31, 2017, there were no transfers between Level 1 and Level 2 fair value measurements. None of the financial assets and financial liabilities are in Level 3.

The following table describes the key inputs used in the valuation (basis discounted cash flow technique) of the Level 2 financial assets / liabilities as of March 31, 2018 and March 31, 2017:

Financial assets / liabilities	**Inputs used**
Derivatives	
- Currency swaps, forward and option contracts	Forward currency exchange rates, interest rates
- Interest swaps	Prevailing / forward interest rates in market, interest rates
- Embedded derivatives	Forward currency exchange rates, interest rates
- Investments	Prevailing interest rates in market, interest rates
- Other financial assets / Other fixed rate borrowings / Other financial liabilities	Prevailing interest rates in market, future payouts, interest rates

37 Other matters

(i) In 1996, the Company had obtained the permission from DoT to operate its Punjab license through one of its wholly owned subsidiary. However DoT cancelled the permission to operate in April, 1996 and subsequently reinstated in March, 1998. Accordingly, for the period from April 1996 to March, 1998 ('blackout period') the license fee was disputed and not paid by the Company.

Subsequently, basis the demand from DoT in 2001, the Company paid the disputed license fee of ₹4,856 for blackout period under protest. Consequently, the license was restored subject to arbitrator's adjudication on the dispute. The arbitrator adjudicated the matter in favour of DoT, which was challenged by the Company before Hon'ble Delhi High Court. In 2012, Hon'ble Delhi High Court passed an order setting aside the arbitrator's award, which was challenged by DoT and is pending before its division bench. Meanwhile, the Company had filed a writ petition for recovery of the disputed license fee and interest thereto. However, the single bench, despite taking the view that the Company is entitled to refund, dismissed the writ petition on the ground that the case is still pending with the larger bench. The Company therefore has filed appeal against the said order with division bench and is currently pending. DoT had also filed an appeal against the single judge order. Both these appeals are tagged together and are listed for final hearing. The Hon'ble court has directed both the parties to file comprehensive written submission.

(ii) TRAI vide Telecom Interconnect Usages Charges Regulation (Eleventh Amendment) 2015 has reduced the IUC charges for mobile termination charges to 14 paisa from 20 paisa and abolished the fixed-line termination charges. The Company has challenged the said Regulation before the Hon'ble Delhi High Court and the matter is currently pending.
